

WORSHIP TEAM MINUTES

JUNE 16, 2020

7:00 PM

Chris opened the meeting with prayer

John Statom opened the discussion by sharing his assessment how much technical equipment we needed to continue live streaming our services and how much it would cost.

It was determined that we have pieces of the necessary equipment, but need vital items to continue on and an expert technician to run them. The total needed for equipment was estimated at 400.00 and a stipend of 50.00 to be paid per week to the new technical support person.

In light of the cost and lack of technical support, we would continue live streaming at a later date, to be determined after a budget request is submitted and approved for both the equipment and the stipend.

Wednesday, July 1, at 7:00 will begin Worship on Wednesday, we will continue with outdoor worship. In the event of foul weather, the service will be moved to the next day at the same time. In the event that is also not possible, Chris will conduct an on-line service that night.

The last day for Chris will be Wed. July, 22. For the two weeks following (July 29, Aug. 5) Donna will continue out door service. Supply pastors from UCC will then begin, until our new pastor (?) arrives.

The team is working diligently on a path to opening the church. We would prefer sooner than later and are carefully scrutinizing the trends in hope that we will best choose a goal that fits our requirements,

Chris closed the meeting with a prayer

Next meeting: Monday, June 22, 7:00 on Zoom

Respectfully submitted.,

Susan D'Angelo, Minister of Worship
